

Bridgeport Port Authority

Motiva Enterprises LLC

The Terminal:

The terminal stores gasoline, No. 2 fuel oil, low sulfur diesel, and diesel and gasoline additives.

Location:

Off Interstate I-95 at exit 30. Bridgeport Harbor, inside of breakwater, east side at mouth of Johnsons Creek. Terminal covers approximately thirty-nine (39) acres divided between the cities of Stratford and Bridgeport

Operation Time 365 / 24 / 7.

Products & Services

Asphalt is received at the dock on barges and tankers and is transferred via pipeline to a third party.

The terminal has a total of thirteen (13) product storage tanks with a total storage capacity of approximately one million three hundred thousand (1.3MM) bbls. and a four (4) lane bottom loading rack.

All product is received via truck and/or marine vessel. Product is transferred out typically via pipeline and/or truck. Distillate products can also be transferred out via barge.

Facilities

The dock facility is equipped with one (1) berth. Maximum vessel length is six hundred fifty feet (650) with a dock draft of thirty-five feet (35) and a DWT displacement of forty five thousand (45,000) long tons. The unloading rate may vary between four and eleven thousand (4 11,000) bbls/hr.
